Principal's Message:

Since I started as the high school building principal on February 3, 2020, I have heard a great deal about Lewiston-Porter's membership in the International Student Science Fair. The fair and the organization of the International Science Schools Network (ISSN) were new terms that I had not heard of prior to my tenure at Lew-Port. Mr. Casseri and members of our amazing science team at the high school would often speak of the opportunities afforded to our students through the ISSN and its prestigious fair. Lew-Port was the only public school district to "compete". Collaborative relationships were formed and our membership in the ISSN provides the ability to travel to foreign lands and schools. All of this is true, but seeing the students and staff members interact and truly enjoy each other's company has absolutely moved me both professionally and personally. I was able to witness the ability and willingness of our students to "step out" of their comfort zones to grow both as students within the field of science exploration and as members of the science community. During the closing ceremony, I spoke to the importance of the universal language of science and math and how the students attending this event were the future beacons of light in a very bright future.

Speaking of my tenure as a high school building principal, this will be my last board report as a member of the Lew-Port Family. As you are all aware, I was appointed by the North Tonawanda City School District in April to be the new high school principal at North Tonawanda High School beginning Friday, July 1st. I want to thank the board of education for the opportunity and privilege of serving as your high school principal for the past 28 months. During the course of the past 28 months, we have overcome many challenges and made countless tough decisions. I can say without hesitation that as One Lew-Port Family, we rose above these difficulties to support our students, staff, and the community, while never wavering in our commitment to always Aiming Higher. I wish nothing but continued success for the Lew-Port Family and absolutely believe that your tomorrows will always be brighter because of the amazing and dedicated people who call Lew-Port home.

Thank you,

Brad Rowles
Go, Lancers!!!
